General Information

The *Canon Collins Thekgo Fund* is a non-profit initiative which was established by a group of professionals with a passion for promoting access to higher education. The bursary is funded by personal contributions from like-minded supporters and run on a voluntary basis by a committee consisting of the founding members.

The bursary was set up in response to the troubling South African reality that new students often forego the opportunity for tertiary education due to inability to raise the initial registration fees; a situation worsened by lack of awareness about the bursary schemes and funding opportunities available to them. The bursary scheme therefore affords successful applicants access to the initial registration fee, which allows them to enrol at tertiary institutions and subsequently access alternative financial support.

Are you eligible?

Any student who has a strong academic record **and** is financially challenged, who has gained acceptance into a public South African higher education university for the first year of a diploma, undergraduate or postgraduate degree, and is not able to pay their first year registration fees without assistance is eligible to apply.

To be considered for an award applicants must:

1. Have been accepted to study at a university in the Eastern Cape, South Africa for a full-time programme. Applicants must be in their first year.
2. Be able to produce an academic record demonstrating strong academic merit at either Grade 12 level or a university academic record of the undergraduate degree (for postgraduate students). In cases where students have not completed Grade 12 with an exemption or have been accepted for undergraduate programmes based on an age exemption, candidates must demonstrate they have been actively involved in studies/activities relevant to their academic interest and studies they intend to pursue or where necessary have already applied for an age exemption certificate which allows them entry into university. All international students must ensure they have a South African equivalency certificate for their studies.
3. Be able to demonstrate financial need and be able to provide the necessary documentation to substantiate this – via a pay slip and 3 month bank statement and/or statement of oath made in front of a law official (which can be done at local police stations).
4. Have filled in all bursary forms provided by the institution, NFSAS and other relevant funding bodies.
5. Seeking support for a degree programme within Thekgo's focus disciplines in the Humanities, listed above.

Incomplete or ineligible applications will not be processed or answered.
