for Fellowship Awards 2016
(for 2016-2017 Entry)**

Application via the website of the Canon Collins Education and Legal Assistance Trust
(www.canoncollins.org.uk)

Ambasáid na hÉireann
Embassy of Ireland

Important Information for Kader Asmal Fellowship Programme Applicants

Application Process

The Kader Asmal Fellowship Programme invites applications for scholarships for postgraduate study in Ireland commencing in September 2016. This directory provides a full list of available courses.

The Kader Asmal Fellowship Programme opens for applications on **Monday 9 November 2015** and the closing date for applications is **Monday 22 February 2016**. Applications can only be accepted online via the website of the Canon Collins Trust (www.canoncollins.org.uk).

Fellowships will only be awarded upon confirmation that applicants have been offered a place on one of the courses listed in this directory. Applicants must apply separately to the university. **Fellowship applicants are advised not to apply for any courses in Ireland without direct instruction from the Embassy of Ireland.** Please note that application fees will be paid by the Embassy of Ireland for *shortlisted candidates only*. We will let all applicants know the final outcome of their fellowship application by June 2016.

Course Applications

On instruction from the Embassy of Ireland, do submit your course application directly to the college or academic department listed in this directory and not to the Embassy of Ireland (Irish Aid), the Canon Collins Foundation or ICOS.

- To comply with the requirements of the fellowship, your course application and supporting information must be submitted no later than **30 April 2016**. However, some courses will have *earlier* submission deadlines that you must meet. You should confirm the deadline on the institution's website;
- Most colleges in Ireland only accept **online** applications. When applying, be sure to select the **correct course code** and ensure that it matches a **full-time** programme. Failure to do so may result in your application being misdirected;
- Incomplete course applications will take longer to process and may result in you missing the course application deadline;
- When submitting course applications, it is essential that you provide original transcripts of exam results or degree certificates or *certified* photocopies. Uncertified photocopies are not accepted;
- Regardless of when you apply, decisions on course applications may not be notified by universities or colleges until June or early July.

English Language Proficiency

To fulfil Kader Asmal Fellowship requirements, **all candidates for study in Ireland** will be required to hold an IELTS certificate (obtained not more than two years ago) with a minimum score of 6.5. The Embassy of Ireland will cover the cost of an IELTS examination for shortlisted applicants who do not hold a certificate.

Please note that **some courses in Ireland and South Africa may specify a higher IELTS requirement** than above for admission. Where possible, this is indicated in the listings by drawing attention to the course webpage. **It is the applicant's responsibility to research the required academic and IELTS qualification for their chosen course, to ensure that they have the necessary standard.**

NOTES ON COURSE LISTINGS

IRELAND LISTINGS

The courses included here have been identified as appropriate for applicants to the Irish Aid Fellowship Training Programme. Every care has been taken in compiling this listing; however information for 2016-2017 was not fully available at the time of printing. In addition, some course information, web addresses and contacts will inevitably change during each academic year. **Before preparing or submitting an application, you are advised to check the latest details provided online by the relevant institution and should not rely solely on the information in this document.**

ABBREVIATED WEB ADDRESSES

Many long course web addresses have been shortened - e.g. www.bit.ly/qEdRCn for ease of transcription, if required. Any capitalisation should be noted accurately as these addresses are case-sensitive.

Irish Council for International Students (ICOS)

The Irish Council for International Students (ICOS), based in Dublin, is an independent non-profit network of educational institutions, NGOs and individuals interested in international education and working with government and other agencies to promote good policies and best practice in relation to the recruitment, access and support of international students in Irish education. ICOS manages administrative aspects of the Fellowship Training Programme on behalf of Irish Aid.

**Agriculture,
Environmental Science,
Conservation,
Rural Development
and related studies**

A1 MSc (Agr) in Sustainable Agriculture and Rural Development**UCD**

UCD Life Sciences Graduate School
Science Centre Hub
University College Dublin
Belfield
Dublin 4

Course Director: Karen Holland
Tel: +353 1 716 7706
Email: Karen.Holland@ucd.ie

Course Duration: 1 year

Course Outline: Sustainable Agriculture and Rural Development involves education, use of economic incentives and the development of new technologies to ensure stable supplies of nutritionally adequate food. It also involves employment and income generation as well as natural resource management and environmental protection' (United Nations, Agenda 21). This programme is a response to the new agenda for agriculture and rural area development. It represents a return to core values in the development of rural areas which are rooted in agricultural change as well as responding to new societal demands such as safe and ethically produced food, a healthier environment and sustainable and affordable energy.

Course Suitability: Graduates of this programme typically work in government, agricultural and rural development agencies, local development agencies, NGOs involved in rural development as well as donor agencies and international development organisations.

Indicative Content: Core - Sustainable Agriculture; Strategic Communications for Development; Policies and Strategies for Sustainable Agriculture and Rural Development; Research Methods I and II; Minor Thesis. Options - Economics and Sociology in Rural Development; ICT and E-Business; Humanitarian Action Principles and Practice; Planning for Development; Rural Enterprise and Marketing; Management and Finance.

Admission Requirements: Normally an Honours university degree. Graduates who hold a pass level combined with substantial relevant professional or voluntary experience.

Course Webpages: [shortened as] www.bit.ly/qEdRCn

Application: Apply through UCD's online applications system - www.ucd.ie/apply. In case of difficulty, contact the course director (details above).

A9 MSc in Climate Change, Agriculture and Food Security**NUIG**

School of Natural Sciences
National University of Ireland, Galway
University Road
Galway

Course Director: Dr. Edna Curley
Tel: +353 91 494 158
E-mail: edna.curley@nuigalway.ie

Course Duration: 1 year

Course Outline: The programme provides students with the skills and tools for developing agricultural practices, policies and measures addressing the challenge that global warming poses for agriculture and food security worldwide. It will develop a balance of scientific, technical, analytical and crosscutting skills.

Course Suitability: Graduates seeking the necessary skills and capabilities to pursue a career in both climate change mitigation and adaptation for agriculture and food security.

Indicative Content: Climate Change, Agriculture & Global Food Security; Climate Change, Agriculture, Nutrition & Global Health; Policy & Scenarios for Climate Change Adaptation & Mitigation; Gender, Agriculture

[Go to 'Table of Contents'](#)

& Climate Justice; Low-Emissions Climate-Smart Agriculture & AgriFood Systems; Climate Change Adaptation, Mitigation & Risk Management; Monitoring Climate Change: Past, Present, Future; Climate Change, Natural Resources & Livelihoods; AgriBiological Responses to Climate Change; CCAFS Science Communication: Techniques & Models; CCAFS Case Studies, Journal Club & Datasets; CCAFS Research Skills/Techniques; CCAFS Research Project.

Admissions Requirements: Minimum 2:1 honours degree or equivalent in an appropriate discipline.

Application:

PAC Code: GYS00

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above.

A10 MA in Rural Sustainability

NUIG

School of Geography and Archaeology
National University of Ireland, Galway
University Road
Galway

Course Co-directors: Dr. Maura Farrell
Dr. John McDonagh
Dr. Marie Mahon
Tel: +353 - 91 - 494118
E-mail: maura.farrell@nuigalway.ie

Course Duration: 1 year

Course Outline: This course aims to equip future decision-makers with theoretically informed, critical and practical skills focused on the interrelationship between rural activities and the dynamic global economy. The programme will provide students with a clear understanding of the processes, perspectives and practices shaping the contemporary and future rural world. There is a strong focus on the formulation of rural and agricultural development policies and strategies; the role of global actors from multi-national corporations to the rural household; the nature and impact of rural-related governance from the WTO and EU to local institutions and grassroots organisations.

Course Suitability: Staff of national and international organisations and agencies with a rural development remit; staff of government departments and other public sector organisations concerned with the rural sector.

Indicative Content: Conceptualising the Rural - Policy, Strategy and Governance; Rural Community and Field-based Learning; Rural Development and Communication for Rural Innovation; The Multifunctional Countryside; Research Methodologies; Practising Rural Geography; Dissertation (Research Paper).

Admission Requirements: A 2.1 Honours Degree in Geography or a related discipline, or equivalent (prior learning in terms of relevant work experience is also recognised).

Application:

PAC Code: GYA95

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above.

B

**Food Science,
Food Engineering,
Bioresource Technology,
and related studies**

UCD Life Sciences Graduate School
Science Centre Hub
University College Dublin
Belfield
Dublin 4

Course Contact: Mai Cass
Tel: +353 1 716 7484
Email: mai.cass@ucd.ie

Course Duration: 1 year

Course Outline: This course provides comprehensive coverage of the engineering involved in bioprocess and food manufacturing systems. Students will acquire skills in the application of leading edge technologies to the agri-food and biotechnology industries, including novel food processing technology, food process automation, computer vision for food quality and food safety.

Course Suitability: Graduates in Engineering, Science and related disciplines who are interested in food and bioprocess engineering, risk assessment, process development, process control, advanced manufacturing systems and associated environmental issues.

Indicative Content: Bioprocess Engineering Principles; Waste Management; Advanced Food Refrigeration Systems; Engineering Design for Food Quality and Safety; Advanced Environmental Engineering; Quantitative Risk Assessment for Human and Animal Health; Unit Operations in Bioprocess Engineering; Advanced Food Process Engineering; Thesis.

Admission Requirements: An Honours degree in Engineering or a relevant subject from a recognised higher education institution.

Course Webpage: [shortened as] <http://bit.ly/1VauFVc>

Application: Apply through UCD's online applications system - www.ucd.ie/apply

UCD Life Sciences Graduate School
Science Centre Hub
University College Dublin
Belfield
Dublin 4

Course Contact: Mai Cass
Tel: +353 1 716 7484
Email: mai.cass@ucd.ie

Course Duration: 1 year

Course Outline: This is a multi-disciplinary programme providing an intensive treatment of the engineering technologies associated with bioprocess and food technology, environmental protection and bioresource mechanisation. Students follow modules appropriate to their particular choice of one of three streams - Bioprocess Technology, Environmental Protection Technology or Sustainable Bioresource Technology.

Indicative Content: Core - Thesis. Options - Advanced Food Refrigeration Systems; Engineering Design for Food Quality and Safety; Advanced Environmental Engineering; Advanced Biofuels and Renewable Energies; Advanced Food Process Engineering; Advanced Buildings for Animal Production; Advanced Air Pollution; Advanced Power and Machinery; Advanced Power and Machinery: Mechanisation; Quantitative Risk Assessment for Human and Animal Health; Bioprocess Engineering Principles; Waste Management; Unit Operations in Bioprocess Engineering; Spreadsheet Modelling and Business Applications; Precision Agriculture.

[Go to 'Table of Contents'](#)

Admission Requirements: An Honours degree in a relevant subject area (including, but not limited to, agriculture, food science, environmental and engineering disciplines).

Course Webpage: [shortened as] <http://bit.ly/191aLn5>

Application: Apply through UCD's online applications system - www.ucd.ie/apply

B3 MSc in Applied Science (Food Science)

UCC

Department of Food and Nutritional Sciences
University College Cork
Cork

Course Coordinator: Professor Alan Kelly
Tel: +353 21 4903405/3092
Email: a.kelly@ucc.ie

Course Duration: 1 year

Course Outline: This course offers advanced modules in established and emerging areas of Food Science plus modules in research methods. Novel methods of teaching with emphases on project work and innovative forms of learning are used.

Indicative Content: Core - Scientific Training for Enhanced Postgraduate Studies; Library Project in Food Science; Research Project. Options - Novel Processing Technologies and Ingredients; Advances in Brewing and Beverage Science; Material Science for Food Systems; Advanced Topics in Dairy Biochemistry; Advances in the Science of Muscle Foods; Food and Biochemical Toxicology; Human Nutrition and Health; Functional Foods: New Frontiers for Food and Health; Food Business: Markets and Policy; Hygienic Production of Food

Admission Requirements: Normally an honours BSc degree, minimum grade of 2:2, from programmes in Food Science, Food Technology, Nutritional Sciences, Food Business, Microbiology or any discipline within Biological or Chemical Sciences.

Course Webpage: [shortened as] www.bit.ly/aKQbk5

Application:

PAC Code: CKR22

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above. *Additional application information is posted on the course webpage.*

B4 MSc in Applied Science (Food Microbiology)

UCC

College of Science, Engineering and Food
Science
University College Cork
Cork

Course Director: Professor Gerald Fitzgerald
Tel: +353 21 490 2730
Email: g.fitzgerald@ucc.ie

Course Duration: 1 year

Course Outline: This course aims to provide graduates with the knowledge and skills to enable them to contribute to the Irish and international food industries. Content will focus on the practical value of food microbiology in ensuring food quality and food safety and the importance of food microbiology in developing new, innovative and healthy foods. It covers both classical and modern food microbiology, including food safety and spoilage; food fermentation; food biotechnology; hygienic production of food; the impact of diet on health; the molecular mechanisms of infectious microbes and the role of the gut microbiota in human health.

[Go to 'Table of Contents'](#)

Indicative Content: Core: Scientific Training for Enhanced Postgraduate Studies; Biotechniques; Library Project in Food Microbiology; Research Dissertation. Options: Food Fermentation and Mycology; Microbial Food Safety; Food Biotechnology; Hygienic production of Food; Functional Foods for Health; Food Markets and Policy

Admission Requirements: Minimum 2:2 Honours in any relevant primary degree.

Course Webpage: [shortened as] www.bit.ly/CH3iJY

Application:

PAC Code: CKR19

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above. *Additional application information is posted on the course webpage.*

C

Health, Medicine, Nutrition and related studies

C1 Master of Public Health (MPH)**UCD**

UCD School of Public Health and Population
Science
Woodview House
University College Dublin
Belfield
Dublin 4

Course Contact: Dr. Patricia Fitzpatrick
Tel: +353 1 716 3455
Email: patricia.fitzpatrick@ucd.ie

Course Duration: 1 year

Course Outline: The MPH provides broad-based education and training in the basic disciplines which underlie the practice of Public Health. Students will acquire: (i) knowledge of the factors influencing health status; (ii) the epidemiological skills of study design and analysis; (iii) a proper understanding of the Public Health function; (iv) ability to work as an active team member in planning, implementing, monitoring and evaluating health policy; (v) skills to assess the health status of populations; (vi) critical appraisal and effective problem-solving attributes; (vii) an understanding of the organisation and financing of Health Services and their impact on population health (viii) the capacity to integrate a range of disciplines effectively. Specialist pathways are available in MPH (Nutrition) and MPH (International).

Course Suitability: Medical and dental practitioners and those with professional backgrounds in health or health care provision, who hold an appropriate primary degree or equivalent qualification.

Indicative Content: Core - Research Methods in Epidemiology; Aetiology of Disease; Public Health Practice; Quantitative and Qualitative Analysis; Health and Social Sciences; Health Promotion; Health Economics; Health Management. Options - Risk Perception, Communication and Behaviour Changes ; Research Methods in Genetic Epidemiology; Environment and Health; Veterinary Epidemiology and Food Safety; Nutrition Epidemiology; Infectious Disease Epidemiology; Advanced Medical Sociology; Social Epidemiology; International Health; Irish Specialist Practice

Admission Requirements: Normally, at least two years must have elapsed between obtaining a primary degree and commencement of the MPH.

IELTS Requirement: Minimum Overall Band Score of 7.0, with a result NOT LESS than 6.5 in EACH of the individual sections

Course Webpage: www.ucd.ie/phpps/postgraduateprogrammes/mph

Application: Apply through UCD's online applications system - www.ucd.ie/apply

C2 Masters in Public Health (MPH)**UCC**

Department of Epidemiology and Public Health
Brookfield Health Sciences Complex
University College Cork
Cork

Course Co-ordinator: Anne Fitzpatrick
Tel: +353 21 4205525
Email: anne.fitzpatrick@ucc.ie

Course Duration: 1 year

Course Outline: This course allows students to attain a general Public Health qualification or focus on one of three sub-specialties: Health Promotion, Health Protection or Epidemiology.

[Go to 'Table of Contents'](#)

Course Suitability: Graduates from a range of different professional backgrounds seeking academic and experiential development in the theory and practice of Public Health

Indicative Content: Core - Principles and Practice of Public Health; Applied Research for Public Health; Public Health Informatics; Leadership in Public Health; Practice Portfolio; Research Project in Public Health and Epidemiology. Options – Public Health Psychology; Health Promotions: Concepts, Principles and Practice; Environment and Health; Practice Portfolio; Critical Social Science Perspectives on Public Health; The Principles and Practices of Multi-disciplinary Health Protection; Microbiology for Health Protection; The Global Burden of Communicable Diseases; Infection Control: Theories, Modules and Management; Advanced Epidemiology; Advanced Biostatistics; Survival Analysis.

Admission Requirements: Normally at least a 2:2 Honours degree in a relevant subject or at least a 2:2 Honours degree in any discipline with a postgraduate qualification in a relevant field or evidence of at least two years relevant work experience.

Course Webpage: [shortened as] www.bit.ly/cnpce3

Application:

PAC Code: CKX11

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above. *Additional application information is posted on the course webpage.*

C3 MSc Public Health Engineering

UCD

UCD School of Biosystems and Food Engineering
University College Dublin
Belfield
Dublin 4

Course Director:
Tel:
E-mail:

Pr. Nick Holden
+353 1 716 7460
nick.holden@ucd.ie

Course Duration: 1 year

Course Outline: This course addresses technological management of vectors through food, water and environment for the transmission and control of adverse agents (chemicals, organisms and diseases). The programme focuses on the technologies and methodologies needed for public health management, water management, food regulation and environmental control for implementing environmental and planning policies including; licensing and compliance requirements; green technology policies and consideration of sustainable technology for public health management.

Course Suitability: Those working in engineering and public health such as Graduate Engineers; Environmental Scientists; Planners and Local Authority Civil Servants.

Indicative Content: Quantitative Risk Assessment for Human and Animal Health; Water/Air Treatment Technology; Waste Management; Environment & Health; Public Health Practice; Health Impact Management; Air Pollution and Public Health Engineering Technology Project

Admission Requirements: Minimum of a 2nd Class honours degree in a cognate discipline (e.g. Agricultural, Bio-systems, Chemical, Civil or Food Engineering; Agricultural Science, Environmental Science, Public Health, Planning. Note this list is not exhaustive).

Course Webpage: [shortened as] <http://bit.ly/1Kfwz56>

Application: Apply through UCD's online application system – www.ucd.ie/apply.

[Go to 'Table of Contents'](#)

College of Business and Law
University College Cork
Cork

Course Director: Mr Seamus Coffey
Tel: +353 21 490 2886
Email: s.coffey@ucc.ie

Course Duration: 1 year

Course Outline: This research-oriented course emphasises the understanding and application of the fundamental concepts, theories and empirical techniques of health economics. The programme includes economic evaluation techniques in health care; the role of health in economic development; assessment of systems of health care financing and provision; and applied research. Advanced analytical and technical capabilities are developed to address the issues involved in allocating resources in the health sector.

Course Suitability: Graduates whose work role involves applying economic theory to health policy in the public, private and non-profit sectors.

Indicative Content: Health Care Systems and Organisation; Health Care Economic Evaluation; Applied Health Survey Methods; Applied Health Econometrics; Public Health and Health Services Research; Research (Minor) Thesis in Health Economics.

Admission Requirements: A degree or postgraduate diploma which had Economics as a substantial component and at least a 2:2 grade on the aggregate of all Economics modules in the degree or diploma award.

Course Webpage: [shortened as] www.bit.ly/cjuiZr

Application:

PAC Code: CKL20

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above. *Additional application information is posted on the course webpage.*

J.E. Cairnes School of Business and Economics
National University of Ireland, Galway
University Road
Galway

Course Director: Professor Ciaran O'Neill
Telephone: +353 91 492 409
Email: ciaran.oneill@nuigalway.ie

Course Duration: 1 year

Course Outline: This course provides an understanding of the key economic issues confronting health care systems. It introduces the tools and methods necessary to analyse these issues and critically appraise alternative solutions that have emerged in different economies. The role and techniques of evaluation in health care are examined in detail including the theory and practice of evaluation, the use of models to address incomplete information and the presentation of study findings to inform policy makers.

Course suitability: Professionals with appropriate responsibilities within the public or private health care sectors.

Indicative Content: Health and Social Care; Cost Benefit Analysis and Evaluation; Data Management and Survey Techniques; Econometrics; Public Sector Economics; Decision Modelling; Health Technology Assessment; Health Systems and Policy Analysis; Dissertation.

Admission Requirements: A primary degree at minimum 2:1 which included the study of economics to intermediate level or a higher diploma in economics with 2:1 or equivalent.

Course Webpage: [shortened as] <http://bit.ly/1KIPIrt>

Application:

PAC Code: GYC26

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above.

Application deadline: Early April.

L

**Economics,
Accounting,
Human Resource Management,
Public Administration**

L2 MEconSc in Economic Policy Evaluation and Planning**NUIG**

J.E. Cairnes School of Business and Economics
National University of Ireland, Galway
University Road
Galway

Course Director: Eithne Murphy
Tel: +353 91 493 109
Email: eithne.murphy@nuigalway.ie

Course Duration: 1 year

Course Outline: The course provides students with the theoretical and conceptual foundations to examine issues in economic policy evaluation and planning. It will seek to develop the analytical skills needed to contribute to economic and social planning in a wide variety of fields and the applied skills needed to undertake the evaluation of public policy programmes and plans. This programme normally includes an internship in an appropriate local, regional or national agency, allowing students to gain direct experience of policy issues. (Students entering the programme with a BA will be awarded an MA in Economics on completion of the programme).

Course Suitability: Graduates pursuing roles in economic policy evaluation and planning in the public, NGO and private sectors.

Indicative Content: Core - Microeconomic Theory; Macroeconomic Theory; Data Management and Survey Techniques; Cost Benefit Analysis and Evaluation; Econometrics; Policy and Planning Analysis. Options - Environmental Economics; Local and Rural Development; Health and Social Care; Transition Economics; International Macroeconomics; Advanced Econometrics; Public Sector Economics; Economics of Innovation.

Admission Requirements: Students admitted to the course will normally hold a 2:1 Honours primary degree or equivalent, which will have included the study of economics to Intermediate level. Students who hold a higher diploma in economics with 2:1 Honours or equivalent may also apply.

Course Webpage: [shortened as] www.bit.ly/cCdzjz

Application:**PAC Code: GYC07**

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above.

L3 MA in Economics**UCD**

School of Economics
University College Dublin
Belfield
Dublin 4

Course Contact: Economics Department
Tel: +353 1 716 8505/8272
Email: economics@ucd.ie

Course Duration: 1 year

Course Outline: This course aims to deepen students' knowledge of economics and provide them with the skills necessary to carry out economic research.

Course Suitability: Students who wish to pursue a career in economics.

Indicative Content: Core - Macroeconomics; Microeconomics; Econometrics; Quantitative Techniques; Research Skills. Options - Economic Development; International Trade; Public Economics; Health Economics; Industrial Organization; Environmental Economics; Climate Change and Energy Economics; Advanced Microeconomics; Advanced Macroeconomics; Advanced Econometrics

[Go to 'Table of Contents'](#)

Admission Requirements: Normally a primary degree with at least 2:1 Honours in Economics or in another degree that has strong theoretical and quantitative content such as Maths, Physics, Engineering or Computer Science. Alternatively, applicants may hold a 2:1 Higher Diploma in Economic Science, or an equivalent qualification.

Course Webpage: www.ucd.ie/economics/graduateprogrammes/ma_ft

Application: Apply through UCD's online applications system - www.ucd.ie/apply

L4 MA in Economics

MU

Department of Economics
Maynooth University
Maynooth
County Kildare

Course Director: Dr. Tom Flavin
Tel: +353 1 708 3681
Email: thomas.flavin@nuim.ie

Course Duration: 1 year

Course Outline: This course provides international quality training in Economics and Econometrics, based on foundational courses in Microeconomic Theory, Macroeconomic Theory, and Econometrics followed by two field courses.

Course Suitability: Those seeking a rigorous graduate-level training in Economics to a standard appropriate to a professional economist.

Indicative Content: Core: Microeconomic Theory I and II; Macroeconomic Theory I; Econometrics I; Economics Skills; Thesis. Options: Industrial Organization; Growth and Development; International Trade; Labour; Financial Intermediation.

Admission Requirements: At least a 2:1 degree in Economics or a related subject.

Course Webpage: [shortened as] <http://bit.ly/1LLwOlC>

Application:

PAC Code: MHH52

Apply online via The Postgraduate Applications Centre (PAC) – www.pac.ie – using the PAC application code shown above. Note: The two year version of this Masters' programme is not eligible for Irish Aid Fellowships.

L5 MSc in Economics

TCD

Department of Economics
Trinity College Dublin
Dublin 2

Course Director: Dr. Carol Newman
Tel: +353 1 896 1325
Email: cnewman@tcd.ie

Course Duration: 10 months

Course Outline: This course focuses on the core technical skills needed to undertake economics research and emphasises active and problem-based learning to ensure mastery of the basic skills. Studies begin with one month preliminary training in mathematics and statistics, followed by 9 months on the MSc register.

Course Suitability: For roles as economists in government or private sector organisations.

Indicative Content: Microeconomics; Macroeconomics; Econometrics; Research Topic.

[Go to 'Table of Contents'](#)

Admission Requirements: Candidates should normally hold at least an upper second class honours degree that has a significant quantitative component. Applications are expected from candidates with single or joint honours Economics degrees, Business or B.Comm. degrees with economics options in their final year, or Mathematics, Physics or Engineering graduates.

Course Webpage: www.tcd.ie/Economics/postgraduate/msc-economics

Application: Apply online via www.tcd.ie/courses/postgraduate/how-to-apply

L8 MA in Accounting

AIT

Dept of Professional Accountancy and
Financial Services
Athlone Institute of Technology
Dublin Road
Athlone
Co. Westmeath

Course Director: Eoin Langan
Tel: +353 90 642 4521
Email: elangan@ait.ie

Course Duration: 1 year

Course Outline: This course seeks to develop students who can (i) evaluate, contrast, criticise and judge the fundamental and advanced theories, concepts, principles, methods and techniques of accounting and research; (ii) demonstrate the critical abilities of analysis, interpretation, evaluation and judgement; (iii) exercise strategic judgement and apply techniques in the analysis and interpretation of information; (iv) assess and contrast the impact of decisions; (v) evaluate and criticise current practices and issues and assess the strategic impact of these issues.

Course Suitability: Graduates in accounting or a related discipline seeking further intellectual and personal development.

Indicative Content: Financial Reporting and Corporate Governance; Financial Strategy; Auditing; Strategic Management Accounting; Taxation; Research Methods; Integrated Case Studies.

Admission Requirements: An honours bachelor degree in accounting (minimum grade 2:2) or closely related discipline, together with the standard required in terms of listed prerequisites for specific modules within the curriculum.

Course Webpage: [shortened as] www.bit.ly/bHqzcg

Application: Forms can be downloaded at: www.ait.ie/international/non-eustudents

For enquiries, contact Mary Simpson, AIT International Office - international@ait.ie or +353 90 642 4562.

L9 MSc in Accounting

DIT

School of Accounting and Finance
Faculty of Business
Dublin Institute of Technology
Aungier Street
Dublin 2

Course Coordinator: Ms Margaret Fitzsimons
Tel: +353 1 402 7070
Email: margaret.fitzsimons@dit.ie

Course Duration: 1 year

[Go to 'Table of Contents'](#)

Course Outline: This programme is aimed at those wishing to further their studies in accounting and who may wish to prepare for a career as a professional accountant. The programme will also develop the skills and competencies required to undertake independent research in the areas of accounting and related areas.

Indicative Content: Core - Financial accounting/reporting; Management accounting; Finance; Thesis. Options: Strategic management; Business information systems; Taxation; Auditing.

Department of Graduate Business
Waterford Institute of Technology
Cork Road
Waterford

Course Director: Paul Morrissey
Tel: +353 51 302 074
Email: pmorrissey@wit.ie

Course Duration: 1 year

Course Outline: This course provides students with the opportunity to greatly enhance their specialist subject knowledge, experience innovative learning methods and explore opportunities arising from innovation, change and business development. Students achieve this through participation in class activities and through involvement in a series of events including those organised by the Chartered Institute of Personnel and Development (CIPD). Our School is an accredited centre for the CIPD professional body and the MBS Human Resource Management awards CIPD graduate accreditation which is a global qualification. A key feature of this programme is that it sets the theories into a wider practical perspective, through the use of case studies, state of the art technology and visiting staff who are experienced and respected practitioners.

Course Suitability: Graduates of human resource management or a general business degree with a human resource management major/specialization that would like to pursue a career in human resource management.
